What students are saying

"I really appreciate the **engaging** and **positive** feedback."

-BTR Student

"He helps me incredibly with understanding the problems and is very **patient** and **reassuring**."

-BTR Student

"I wanted to say thank you for the tutoring, I came into it hesitant at the start thinking I didn't need it and didn't feel like doing it. But **with each session, I learned something new**. I went through a lot those two months and wanted to say you were more than a tutor, **you were a mentor**. It was a pleasure talking to and learning from you."

-BTR Student

What parents are saying

"My daughter has been enjoying her tutoring, she feels comfortable asking questions."

Amanda

Amanda, a former high school math teacher and tutor with a **doctorate** in naturopathy, is passionate about changing perceptions of math as part of the BTR team. She focuses on **building empowering relationships** that boost student confidence and skills beyond the classroom. Her holistic approach to teaching promises an impactful learning experience.

Brynn

Brynn Rone serves as the Leap Year Program Manager. Brynn's hometown is Cincinnati, Ohio. Atlanta is where he completed his Bachelor's degree at Kennesaw State University with a focus in education and math as a **first generation college student**. Brynn joined the AmeriCorps with **Teach For America** Charlotte due to his **passion** for youth advocacy. Years of experience teaching middle school math has led Brynn to create his own non-profit 4EVA Youth geared toward **youth mentorship**.

Eric

Eric is an educator with **14+ years of experience** focused on **equitable learning**. He has worked to align student goals with their academic achievements, notably as **Education Director at South Bronx United, aiding 6th - 12th graders from immigrant communities**, and at StraighterLine, developing educational pathways for adults. Eric earned a B.S. from the University of Notre Dame and M.A. degrees from Loyola Marymount and Stanford University in Education fields. Outside of education, he enjoys pick-up sports and cooking complex recipes.

Max

Max holds a **master's degree in education** and brings over 6 years of dynamic classroom teaching experience, demonstrating a deep passion for instruction and a track record of **significantly enhancing test scores**. Max's pedagogical approach focuses on **strengthening foundational skills** critical to assessments, academic coursework, and real-world applications. Through crafting creative analogies and building genuine connections with students, Max facilitates remarkable progress in their educational journey towards greater success.

Molly

Molly holds a Bachelor of Arts in Education with certifications in math and chemistry, and a **Master of Science** in Mathematics. After teaching high school math in Rhode Island and middle school math in Arizona, she transitioned to tutoring while raising their family. She remains **passionate about math education**, working to enhance students' confidence in the subject with the Bridges to Readiness team. Living on a small farm in southern Oregon with her family, Molly grows a variety of produce and enjoys sports and board games.

Morgan

Morgan is originally from Southern California, where they spent their entire life, including their college years at the University of California, San Diego (UCSD), majoring in Public Health and playing soccer. After college, Morgan joined **Teach for America** in 2015 and began teaching high school chemistry in New Orleans, LA. They have been teaching in New Orleans ever since, expanding their teaching repertoire to include Algebra I. Outside of teaching, Morgan's hobbies and interests include reading and being an avid Saints fan.

Renee

Renee is a veteran and internationally experienced teacher and tutor with **over 19 years of success in educating students** from grades 6-12 and at the undergraduate level in various subjects. Holding a **Masters in Elementary Education**, she is dedicated to fostering the academic growth and confidence of her students, ensuring they are fully prepared for their next stages in life.

Seshan

Seshan is an aerospace engineer with a **passion for math and physics**. Over the past few years, he has assisted college and high school students in mastering these subjects. Whether it's support for SAT prep or **making learning math and science straightforward and fun**, Seshan has it covered. In his free time, he enjoys going on trips with his dog and playing basketball.
